About ESP

Our business is going through an exciting stage in its life as it continues to expand, so there has never been a better time to join our team. We have an ambitious growth plan and we need the right people on board to take us to the next level.

You won't just be a number here at ESP, you will be a member of the family to be nurtured. We offer a career development pathway through our Professional Development Academy, that ensures you have the opportunity to progress and build up your skills. We hope you'll be with us for the long-term as many of your future colleagues have been. We have employees who have been with us for as long as 20 years, with others hitting their 10 and 15-year milestones.

We have a culture of supporting our colleagues, taking on challenges together and recognising and rewarding achievements. We also recognise that work should be a fun place to be. You can dress down on Fridays as a reward for your efforts during the week and we organise regular fundraising activities for our charity of the year. Your colleagues will become friends and you'll enjoy playing your part in the ESP success story.

The Role

Are you a proficient user of Solidworks or Onshape, with a collaborative and cheerful attitude?

Do you perform under the pressure of deadlines and have that desire to succeed?

If this sounds like you, and you would like the opportunity to further develop your skills, then keep reading.

Due to our continued growth in the playground manufacturing industry, we are now seeking a full-time Technical Design Assistant to work in a vibrant, culture-led business.

Our company is experiencing solid and consistent growth. The fact that our projects are becoming larger and increasing in technical detail means this role is critical to our successful project delivery.

The role we are recruiting for is a Technical Design Assistant to work within our Operations team to help with the successful delivery of each of our projects and to support our strategic

objectives connected to standardisation. The design team currently comprises of a team of eight.

The ideal candidate will have 2-3 years' experience in using either Solidworks or OnShape within a construction or furniture company. The role is technically biased and will involve providing detailed information for our manufacturing team and site engineers. The successful candidate must take pride in their work and be able to perform under pressure and to tight deadlines. A team player is essential.

Benefits:

- A competitive salary with the possibility to grow quickly
- Bonuses on achieving targets with clear KPIs
- A great opportunity to work alongside our friendly professional and ambitious team
- Professional development opportunities through our Professional Development Academy
- Career development and opportunities are available for those wishing to grow

If you would like to apply for this exciting new role, please send the following to Anne Nolan, Head of HR:

- 1) A letter of introduction. Please tell us about you
- 2) Full, up to date CV

Please send these two documents to anne.nolan@esplay.co.uk
